Latvia at a Glance

Strategically situated in north-eastern Europe with a coastline along the Baltic Sea, Latvia is an open economy and a member of the European Union and NATO

Milestones

Key Investment Highlights

- Latvia has demonstrated resilience throughout macroeconomic and geopolitical headwinds
- Latvia avoided a recession in 2023 despite deceleration of trading partners
- The economic prospects are strong and supported by private consumption, increased public investment, a strong labour market, and low inflation

- EU member states are Latvia's main trading partners and trade ties with Russia have weakened substantially since 2014
- · Latvia's export sector is both competitive and diversified
- Small current account deficit, largely covered by FDI and EU related capital transfers

- Latvia has a long track record of prudent fiscal policy and Latvia will continue to comply with the new EU fiscal rules
- EU funds and RRF funds are supporting the Government reform agenda
- In the current geopolitical situation defence spending remains the only budget priority

- Latvia benefits from moderate and affordable debt levels, considerably below most European peers
- Latvia's ratings firmly in the 'A' rating category
- · Latvia has access to diversified funding sources

- The country has been a member of NATO since 2004 and is upscaling in its military defence capabilities
- Latvia reacted swiftly to the Russian military invasion of Ukraine, having diversified many aspects of its economy away from Russia including energy

- · Latvian banks remain well capitalized, profitable and cost-efficient
- · Banks have healthy liquidity levels and are mainly focused on financing domestic economic activity

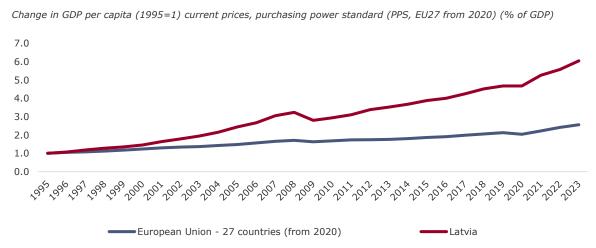

Latvia Has a Track Record of Prudent Fiscal Policy

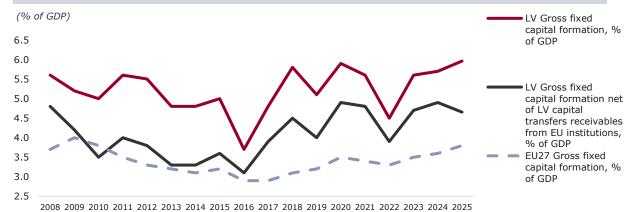

Moderate deficits in years preceding the twin crises contributed to building fiscal buffers, strong commitment to the fiscal rules

Increase of Latvia GDP per capita has been significant

High public investments will continue to support economic growth further

Source: Ameco, European Autumn 2024 Economic Forecast, and MoF calculation for LV Gross fixed capital formation net of LV capital transfers receivables from EU institutions (Eurostat 2008-2024 April 2025 notification data and Progress Report 2025)

Low debt level and fiscal position allowed to provide necessary fiscal stimulus during previous years

Source: Data 2008-2024 according to Eurostat (April 2025 notification data); deficit and debt forecasts (at unchanged policy for 2025-2029 according to the Progress Report 2025 (macroeconomic forecasts as on February 2025; fiscal forecasts as on March 2025) (updated forecasts will be published no later than in August 2025 taking into account latest economic environment)

Commitment to maintain prudent fiscal policy within the framework of reformed EU and national fiscal rules

- On January 21, 2025, the **EU Council endorsed Latvia's Fiscal structural plan** and net expenditure path to be respected during budgetary procedure of next years.
- According to the Progress Report 2025, the net expenditure path set by EU Council is fully respected. The net expenditure path endorsed by the EU Council was set at net expenditure growth of 9.1% in 2024 and 5.9% in 2025, but according to the estimates of the MoF net expenditure growth reached 3.9% in 2024 and is expected to be 5.7% in 2025.
- In the current geopolitical situation **defence spending remains the main budget priority.** Defence spending **well above 3% of GDP is budgeted (2025-2027)**. Budget Framework 2025-2027 provides **flexibility for further increase of defence investments in 2025.**
- The government is working on the financing model to increase defence expenditure to 5% of GDP in the short-term and maintain defence expenditure at level of 5% of GDP in the long-term without endangering fiscal sustainability. Latvia will apply for the National Escape Clause.

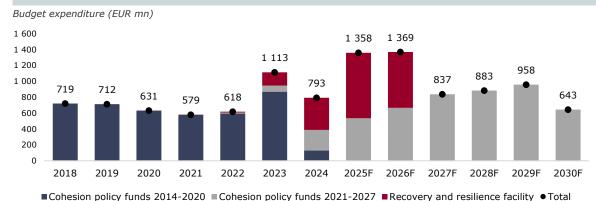

Continued Ambitious, Competitive, Growth-Friendly Investments

RRF and other EU transfers support reforms contributing to long-term sustainable growth

RRF supported reforms

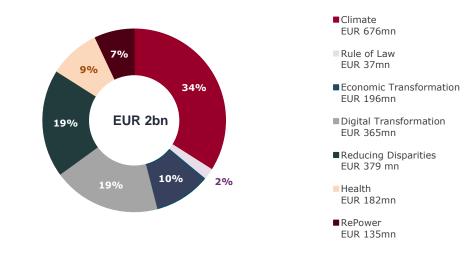

<u> </u>	CLIMATE Transition to sustainable transport, energy efficiency in all sectors, wind farms		
@M)	DIGITAL TRANSFORMATION Coordination mechanisms for public digital services, digital skills		
	REDUCING DISPARITIES Administrative territorial reform and GMI reform		
	HEALTH Healthcare network effectiveness, remuneration reform		
	ECONOMIC TRANSFORMATION Innovation eco-system, consolidation of higher education institutions		
中	RULE OF LAW Strengthening capacity of law enforcement agencies		
1	RePOWER Saving, producing clean energy and energy supply diversification away from Russian fossil fuel		

RRF and Cohesion Policy EU Fund's investments for supporting reform agenda

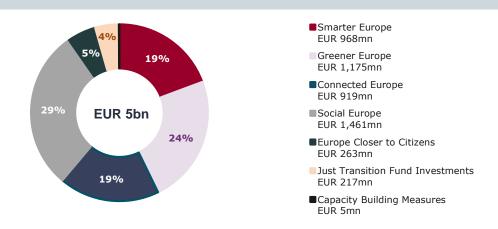

Recovery and Resilience plan (RRF)

(Amendments adopted by the Council on December 8, 2023)

EU Funds 2021-2027

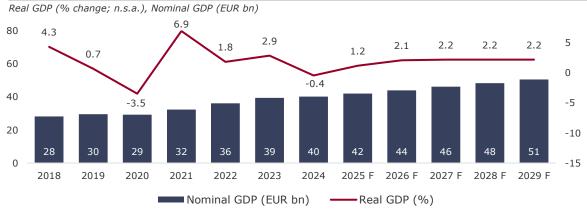

Economic Activity Remains Robust Despite Series of External Shocks

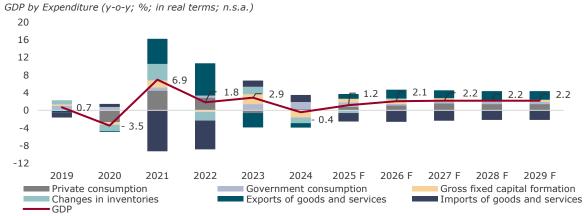

Strong labour market and low inflation will underpin private consumption, while external demand gradual recovery and reforms financed by RRF and EU funds are expected to support exports and investment

The economy has showcased resilience during the twin crises

Source: Central Statistical Bureau of Latvia, F – Ministry of Finance February 2025 forecast (updated forecasts will be published no later than in August 2025 taking into account latest economic environment)

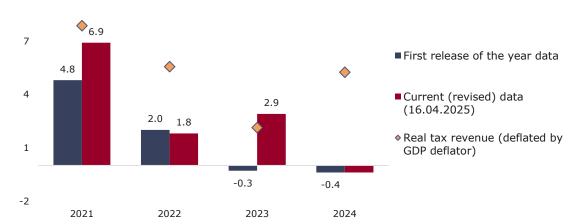

Exports and Private Consumption have contributed to accelerated growth

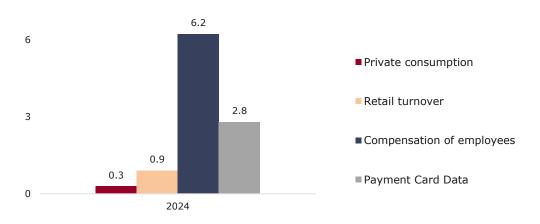

Source: Central Statistical Bureau of Latvia, F - Ministry of Finance February 2025 forecast

2024 GDP might be underestimated, especially private consumption

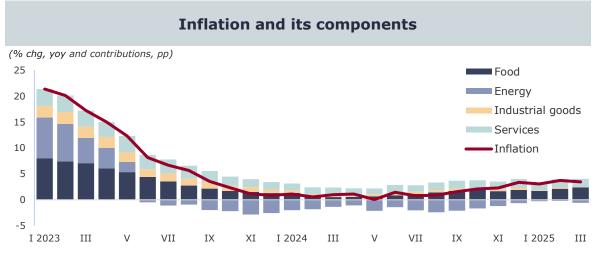

Private consumption indicators GDP (y-0-y; % in real terms; s.a.)

Source: Central Statistical Bureau of Latvia, European Commission, Bank of Latvia, Bank of Latvia calculations, Treasury. Total tax revenue deflated by GDP deflator

Inflation has Rapidly Returned to Low Level and is expected to be around 2%

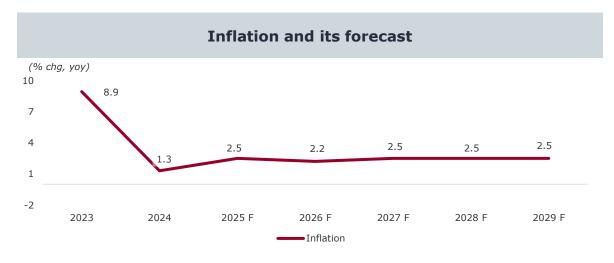

Inflation has receded quickly driven by restrictive monetary policy and a reduction in energy prices, wage pressure is easing

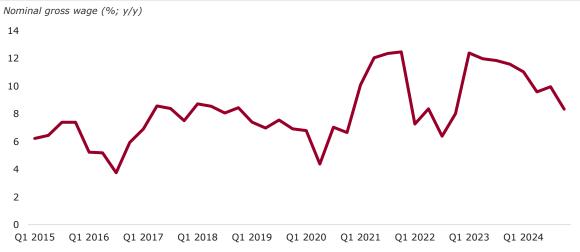

Unemployment has declined to pre-pandemic level

Source: Eurostat, F - Ministry of Finance February 2025 forecast

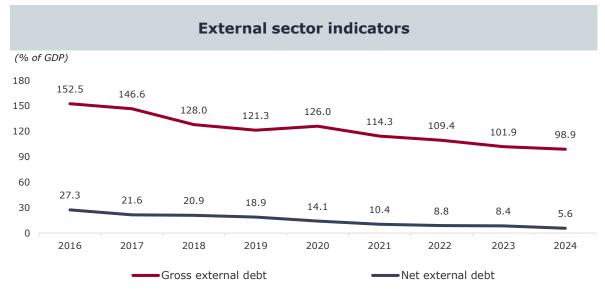

Wage growth is decelerating

Domestic banking has outgrown once considerable foreign banking activities

Bank funding is mostly domestic, AML/CFT risks are managed effectively and exposures to RU and BY are low

Source: Latvijas Banka, Latvijas Banka's calculations

Improvement in AML

- As noted in the IMF Article IV review 2023, Latvia has made significant progress with anti-money laundering and counter financing terrorism (AML/CFT) framework. The risk level of money laundering and terrorism and proliferation financing (ML/TPF) has decreased substantially at Latvia banks.
- Improved control system in financial institutions ensure that financial institutions are able to effectively manage the risk associated with the sanctions imposed against Russia and Belarus.
- Cooperation between all stakeholders has to lead to proportionate application of the AML regulation at Latvian banks without hindering the availability of financial services, Investment attraction and Latvia's economic growth.

Latvia's banking sector has limited contingent liability risk Banking sector assets, % of GDP 350% 250% 250% EU 200% EA 20 Estonia Latvia Lithuania 50%

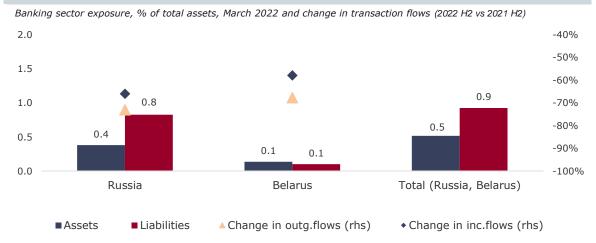

Banking sector exposure to Russia is low and mostly limited to a few smaller banks

2020

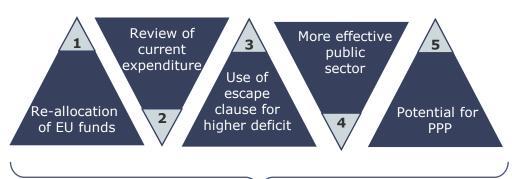

Latvia – Member of the World's Strongest Military Alliance

Latvia has been a member of the North Atlantic Treaty Organization (NATO) since 2004

Various options for financing defence spending exist

Lower budget deficit in 2024 and larger cash buffer in the beginning of 2025 provide a room to finance additional defence expenditures, not breaching debt ceiling, neither hindering the planned debt servicing costs

Latvia continues to increase the defence industry capabilities and support innovation

- Production of Patria 6x6 armoured vehicles
- Production of various types of small-calibre ammunition combat and training cartridges
- Latvia UK lead international Drone Coalition
- New R&D projects for developing innovative counter-unmanned aerial system
- Latvian state-owned company will establish artillery ammunition modular charge production facility as part of international consortium projects (together with companies from France, Italy, Finland and Norway)
- First innovative 5G military test site in Europe ecosystem for developing and testing new generation wireless technologies

Industry contribution to Latvia's economic growth

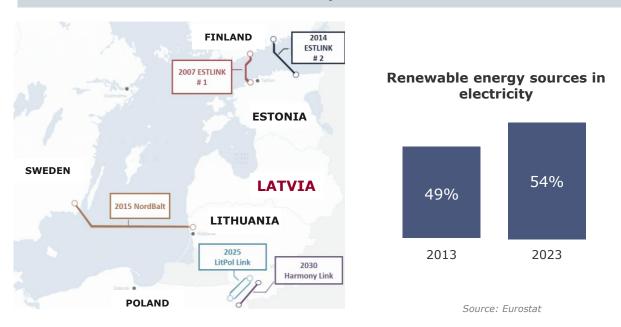

up to 5% of GDP till 2036

According to Defence Industry and Innovation Strategy for 2025 – 2036

Baltics disconnected from BRELL and successfully joined the Continental Europe Synchronous Area

Latvia's Green Transition Enhancing National Energy Independence and Security

Permanent disconnection from the Russian power system as of 9th February 2025

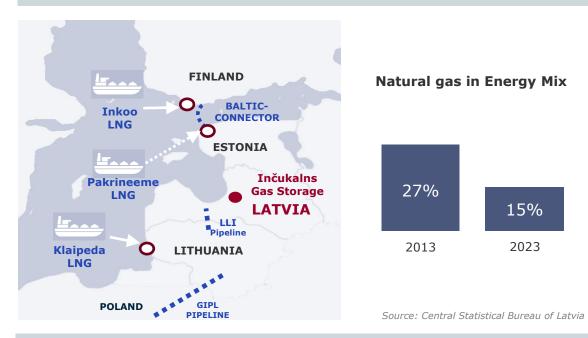

Nord Pool day-ahead electricity prices in Baltic states (monthly aggregate)

Impacted by weather conditions and availability of energy produced by wind, solar and hydroelectric power plants

No natural gas from Russia as of January 2023

Latvia has 3rd largest underground gas storage in Europe (Inčukalns)

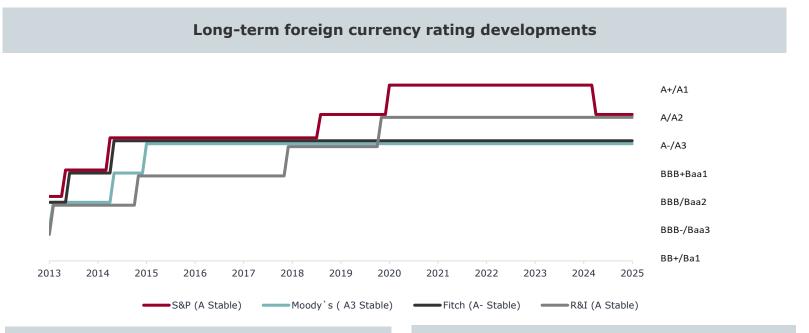

- Inčukalns UGS technical capacity for period 2024/2025 is 23.005 TWh, which serves the total Baltic region`s annual needs and is fully booked
- The storage is 36% full in April 2025 with gas injection season due to start on 1 May

Latvia's Ratings Firmly Consolidated in the 'A' Rating Category

The Latvian economy presents a strong credit, a theme echoed by rating agencies

Fitch Ratings A- / Stable

On November 15, 2024, Fitch Ratings affirmed longterm foreign currency sovereign credit ratings at the A- level and changed outlook from Positive to Stable (contained rating action)

Credit Strengths:

- > Relatively lower government debt levels
- > Lower debt servicing costs than rating peers
- > Credible economic policy framework
- > EU and Eurozone membership supporting policies
- Moderate private sector indebtedness

Moody's A3 / Stable

On January 28, 2025, Moody's provided a regular update following the recent announcement of longterm foreign currency sovereign credit rating remaining at the A3 level with a Stable outlook (did not contain rating action)

Credit Strengths:

- > Track record of prudent fiscal policy
- > High debt affordability and moderate government debt relative to GDP
- > Flexibility and dynamism of the Latvian economy
- > Track record of solid institutions

R&I A / Stable

On March 31, 2025, R&I affirmed long-term foreign currency sovereign credit ratings at the A level with a Stable outlook (contained rating action)

Credit Strengths:

- > Policy that emphasizes fiscal discipline
- > Stable economic growth in the medium term, supported by strength of economy
- > Stability of financial system
- > Investments from EU
- > Government debt in check

S&P Global Ratings A / Stable

On December 2, 2024, S&P Global provided an update about Latvia's credit strength, rating level - A Stable (did not contain rating action)

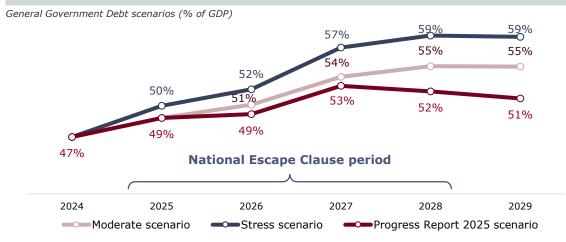

Credit Strengths:

- > Effective economic policymaking and Eurozone, EU and NATO membership
- > Moderate government debt
- > Solid external balance sheet

General Government Debt Remains Moderate and Manageable

General government debt is one of the lowest in Eurozone and is expected to remain below 60% in medium term

Moderate debt level provides buffer for additional funding needs

Source: Eurostat (2024); Borrowing scenario according to Progress Report 2025 of Fiscal-Structural Plan of Latvia 2025-2028; Moderate scenario according to Treasury's and MoF assumptions for defence spending and comfortable cash buffer; Stress scenario according to Treasury's and MoF assumptions, using National Escape Clause in full permissible amount

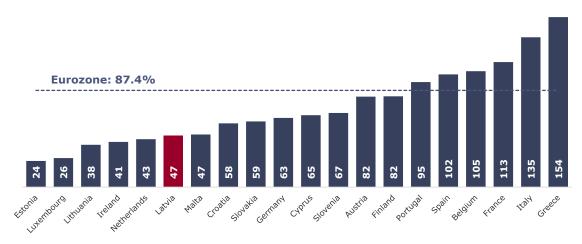

Moderate increase of debt servicing costs in the medium term

General Government Interest Payments (% of GDP)

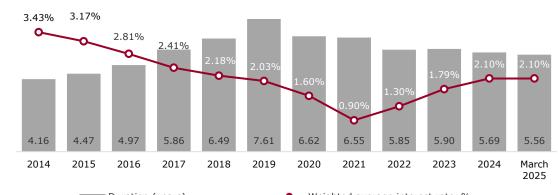

One of the lowest general government debt levels in the Eurozone
