This presentation (the “Presentation”) and its contents may not be reproduced, redistributed, published or passed on to any other person, directly or indirectly, in whole or in part, for any purpose and should not be treated as offering material of any sort.

This Presentation has been prepared by the Ministry of Finance of the Republic of Latvia (“Latvia”) solely for informational purposes and has not been independently verified. It does not purport to be a comprehensive overview of Latvia or contain all information necessary to evaluate an investment in Latvia. As this Presentation only contains general, summary and selected information about Latvia, it may omit material information about Latvia and is not a complete description of Latvia and the risks relating to it. Nothing in this Presentation is, or should be relied upon as, a promise or representation as to the future. This Presentation is being communicated to selected persons who have professional experience in matters relating to investments for discussion purposes only and is incomplete without reference to, and should be viewed solely in conjunction with, any other publicly available information and discussions with Latvia.

This Presentation does not constitute or form part of and should not be construed as, an offer to sell or issue or the solicitation of an offer to buy or acquire securities of Latvia in any jurisdiction or an inducement to enter into investment activity. No part of this Presentation, nor the fact of its distribution, should form the basis of, or be relied on in connection with, any contract or commitment or investment decision whatsoever. This Presentation is not an advertisement and not a prospectus for the purposes of Regulation (EU) 2017/1129 or Regulation (EU) 2017/1129 as it forms part of United Kingdom domestic law by virtue of the European Union (Withdrawal) Act 2018.

Latvia does not make any representation or warranty, express or implied, as to, and accordingly no reliance should be placed on, the fairness, accuracy or completeness of the information contained in this Presentation or of the views given or implied. Latvia shall not have any liability whatsoever for any errors or omissions or any loss howsoever arising, directly or indirectly, from any use of or reliance on any information contained in or omitted from or otherwise arising in connection with this Presentation.

This presentation contains forward-looking statements, which include all statements other than statements of historical facts, including, without limitation, any statements preceded by, followed by or including the words “anticipates,” “estimates,” “expects,” “believes,” “intends,” “plans,” “aims,” “seeks,” “may,” “will,” “should” or similar expressions or the negative thereof. Such forward-looking statements involve known and unknown risks, uncertainties and other important factors beyond Latvia's control that could cause Latvia's actual results, performance or achievements to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. These forward-looking statements speak only as at the date of this Presentation. Latvia expressly disclaims any obligation or undertaking to disseminate any updates or revisions to any forward-looking statements contained herein to reflect any change in its expectations with regard thereto or any new information or change in events, conditions or circumstances on which any of such statements are based.

This Presentation contains data sourced from and the views of independent third parties. In placing such data in this document, Latvia makes no representation, whether expressed or implied, as to the accuracy of such data. The replication of third-party views in this Presentation should not necessarily be treated as an indication that Latvia agrees or concurs with such views.

A rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time by the assigning rating organization. Similar ratings for different types of issuers and securities do not necessarily mean the same thing. The significance of each rating should be analysed independently from any other rating.

By receiving this Presentation, you agree to be bound by the foregoing limitations. This Presentation does not constitute investment, legal, accounting, regulatory, taxation or other advice and does not take into account your individual investment objectives. No recommendation is made as to how investors should exercise any investment decision. Any investor that intends to deal in any existing or prospective securities of Latvia is required to make its own independent investigation and appraisal of the business and financial condition of Latvia and the nature of the securities at the time of such dealing.

Key Investment Highlights

Resilient Economy

- Latvia's economy has shown resilience throughout macroeconomic and geopolitical headwinds
- The economic prospects are strong and supported by private consumption, increased public investment, strong labour market and low inflation
- In 2025, Latvia's economy returned to solid broad-based growth, covering the majority of economic sectors
- RRF and other EU transfers support reforms contributing to long-term sustainable growth

Diversified Export Sector

- Export sector is diversified among various goods and trading partners, moving away from the Russian market
- EU member states are Latvia's main trading partners
- A manageable current account deficit fully funded by FDI inflows, low external debt and a diversified export base limit external risks

Prudent Fiscal Policy

- Latvia has a long track record of prudent fiscal policy
- Latvia's authorities are committed to maintain prudent fiscal policy within the framework of reformed EU and national fiscal rules, taking enough policy measures to ultimately keep budget deficits and government debt in check
- In the current geopolitical situation defence spending remains the main budget priority and increasing defence expenditure up to 5% of GDP is managed responsibly in the framework of national escape clause

Moderate Debt Levels

- Latvia's ratings firmly in the 'A' rating category
- Latvia's general government debt is one of the lowest in Eurozone
- Flexibility is embedded in Latvia's funding strategy and Latvia has access to diversified funding sources

Energy/Military Security

- Latvia has been a member of NATO since 2004 and is upscaling in its military defence capabilities
- Latvia reacted swiftly to the Russian military invasion of Ukraine, having diversified many aspects of its economy away from Russia including energy
- Latvia increases defence industry capabilities and supports innovation

Solid Banking System

- Latvian banks are well capitalized, profitable and cost-efficient
- Banks have healthy liquidity levels and are mainly focused on financing domestic economic activity

Fiscal Policy

Latvia has a track record of prudent fiscal policy and a strong commitment to fiscal rules

Latvia will fully use the flexibility of EU fiscal rules to significantly increase its defence capabilities

General Government budget deficit and debt (% of GDP)

Core defence expenditure to rise up to 5% of GDP starting from 2027

Defence expenditure (% of GDP, based on NATO methodology)

Source: forecasts according to the Ministry of Finance as of June 2026

Commitment to maintain prudent fiscal policy within the framework of reformed EU and national fiscal rules

- On January 21, 2025, the **EU Council endorsed Latvia's Fiscal structural plan** and net expenditure path to be respected during budgetary procedure of next years.
- European Commission assessed that Latvia's **Draft Budgetary Plan 2026 complies with EU fiscal rules and net expenditure path** set by the EU Council.
- Additional expenditure on defence is mainly financed on debt by using existing flexibility in the EU fiscal rules – **national escape clause**, which allows to significantly increase defence expenditure for 2025-2028.
- On November 28, 2025, Latvia has submitted its European Defence Industry Investment Plan, indicating necessary amount of the loan through **Security Action for Europe (SAFE)** instrument. On February 17, 2026, EU Council approved loan in maximum amount of EUR 3.5 billion. On June 20, 2026, the loan agreement was signed.
- The net expenditure path, assessed by the Ministry of Finance in the Progress Report 2026, is in compliance with EU fiscal rules. In its 2026 European Semester Spring Package, the EC assessed that Latvia is compliant with the net expenditure path set by the EU Council for 2025 and 2026.

Continued Ambitious, Competitive, Growth-Friendly Investments

RRF and other EU transfers support reforms contributing to long-term sustainable growth

RRF supported reforms	
	CLIMATE Transition to sustainable transport, energy efficiency in all sectors, wind farms
	DIGITAL TRANSFORMATION Coordination mechanisms for public digital services, digital skills
	REDUCING DISPARITIES Administrative territorial reform and GMI reform
	HEALTH Healthcare network effectiveness, remuneration reform
	ECONOMIC TRANSFORMATION Innovation eco-system, consolidation of higher education institutions
	RULE OF LAW Strengthening capacity of law enforcement agencies
	RePOWER Saving, producing clean energy and energy supply diversification away from Russian fossil fuel

Source: ECB SDW

Domestic banking has outgrown once considerable foreign banking activities

Bank funding is mostly domestic, AML/CFT risks are managed effectively and exposures to RU, BY and Middle East are low

Banking sector balance sheet

Source: Latvijas Banka, Latvijas Banka's calculations

Improvement in AML

- As noted in the IMF Article IV review 2023, Latvia has made significant progress with anti-money laundering and counter financing terrorism (AML/CFT) framework. This is further solidified by MONEYVAL's 6th round evaluation report, published on Feb 2026, which highlights Latvia's high level of institutional effectiveness and confirms that the risk level of ML/TPF has decreased substantially.
- Improved control system in financial institutions ensure that financial institutions are able to effectively manage the risk associated with the sanctions imposed against Russia and Belarus.
- Cooperation between all stakeholders has to lead to proportionate application of the AML regulation at Latvian banks without hindering the availability of financial services, Investment attraction and Latvia's economic growth.

Latvia's banking sector has limited contingent liability risk

Source: ECB, EUROSTAT

Banking sector exposure to Russia, Belarus and Ukraine is low and mostly limited to a few smaller banks, while exposure to the Middle East region is negligible.

Source: Latvijas Banka FINANCIAL STABILITY REPORT 2026

Security and Energy

Latvia – Member of the World's Strongest Military Alliance

Latvia has been a member of the North Atlantic Treaty Organization (NATO) since 2004

Latvia is part of the NATO Eastern flank

Source: NATO, Additional NATO Members not shown on map: USA, Canada, Iceland

Latvia strengthens defence capabilities

- **18 nations** and around **4000 Allied troops** stationed in Latvia
- **Canadian-led** multinational NATO **brigade** in Latvia
- Investments in **Air and Missile Defence system & «Eastern Sentry»**
- Coordinated **fortification** of Europe's eastern **border**
- New infrastructure to accommodate the **training needs**

Strategic directions and goals for Latvian defence industry

More National Armed Forces procurements from domestic industry

Share of local military products in National Armed Forces procurements

- **20%** by 2028
- **30%** by 2036

Increase of innovative capacity

Share of the defence budget for defence research, technology development and innovations

- **1,5%** by 2028
- **3%** by 2036

Bigger contribution of defence industry to Latvian economy

Share of defence industry in the Latvian economy

- **3% of GDP** by 2028
- **5% of GDP** by 2036

Latvia continues to increase the defence industry capabilities and support innovation

- Production of **Patria 6x6 armoured vehicles**
- Production of various types of **small-calibre ammunition**
- Latvia - UK jointly lead international **Drone Coalition** (supply of drones to Ukraine)
- **New R&D projects** for developing innovative counter-unmanned aerial system
- **Artillery ammunition** modular charge production **facility**
- First innovative **5G military test site in Europe**

Baltics disconnected from BRELL and successfully joined the Continental Europe Synchronous Area

Latvia has 3rd largest underground gas storage in Europe (Inčukalns)

- Inčukalns UGS technical capacity for period 2025/2026 is 24.9 TWh, which serves the total Baltic region's annual needs and is fully booked
- The storage is 26,4% full in April 2026. The injection season begins on 1 May 2026. However, injections in the Inčukalns UGS are being conducted since March 2026.

Debt Management

Latvia's Ratings Firmly Consolidated in the 'A' Rating Category

The Latvian economy presents a strong credit, a theme echoed by rating agencies

Long-term foreign currency rating developments

R&I

A / Stable

On April 27, 2026, R&I affirmed long-term foreign currency sovereign credit ratings at the A level with a Stable outlook (contained rating action)

Credit Strengths:

- Reasonable resilience to geopolitical risks
- High economic flexibility
- Firm commitment to fiscal discipline and government debt in check
- Stable economic growth in the medium term

Fitch Ratings A- / Stable

On April 24, 2026, Fitch Ratings affirmed long-term foreign currency sovereign credit ratings at the A-level with a Stable outlook (contained rating action)

Credit Strengths:

- Relatively lower government debt levels
- Lower debt servicing costs than rating peers
- Credible economic policy framework
- EU and Eurozone membership supporting policies

Moody's A3 / Stable

On July 17, 2026, Moody's affirmed long-term foreign currency sovereign credit ratings at the A3 level with a Stable outlook (did not contained rating action)

Credit Strengths:

- Track record of prudent fiscal policy and economy's flexibility
- Solid economic strength
- Track record of solid institutions
- Moderate public debt burden and strong debt affordability

S&P Global Ratings A / Stable

On May 29, 2026, S&P Global provided an update about Latvia's credit strength, rating level - A Stable (contained rating action)

Credit Strengths:

- Prudent policymaking and contained macroeconomic imbalances
- Moderate government and external leverage
- Broad political consensus on key medium-term policy objective

General Government Debt Remains Moderate and Manageable

General government debt is one of the lowest in Eurozone and is expected to remain below 60% in medium term

Moderate debt level provides buffer for additional funding needs

General Government Debt (mEUR and % of GDP, ESA 2010 methodology)
