Management of Planned Domestic Securities

Government securities can be issued in Latvia`s and international financial markets. Government securities in domestic market are issued under the Latvian legislation or under other countries legislation by using auction method. Latvian government bonds in international markets are issued by using syndicate method under other countries legislation.

Calendar for the planned auctions is being published each month on the Treasury's website. Government securities auctions are organized on Wednesdays. The Treasury holds the right to amend the calendar, days on which respective auctions are hold, as well as borrowing amounts and instruments at any time. Since February 2013 the primary dealer system is operating in Latvia.
